RING OF FIRE

RACE REPORT!

The race is on! Blasting from its Power Slammer launcher, this turbo-revving rocer is taking on the ultimate stunt challenge: a daring mid-air jump straight through the fiery RING OF FIRE!

THE RING

A spinning, blazing circle of danger that spells certain doom for all but the most skilled and Fearless LEGO Racers.

THE STUNT

Launch from the Impact-Powered POWER SLAMMER boost system, bear up the jump ramp at maximum speed, and blast through the red-hot Ring of Fire!

GET READY FOR THE ULTIMATE STUNT CHALLENGE!

FROM HELICOPTER TO WIND TURBINE!

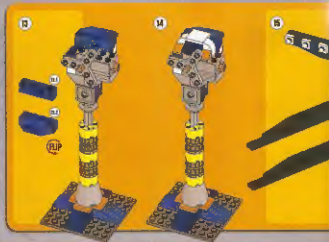

Wind turbines are used to produce clean, renewable energy...and now you can build one for your own LEGO City that really spins with a Power Functions motor! Just rotate it to face the wind, wind up the propeller, and push the button to watch it go. ■

NEW
ASSEMBLY!

You can build the Wind Turbine using pieces from 4886 Cargo Copter!

BATMAN

BIONICLE® BUILDING STEPS! MAZESK

The Mazesk are a species of tiny insects created long ago by the Brotherhood of Makuta to keep larger Rehi beasts in check, using their toxic bite. Makuta Matron brought some samples of the insects to Kordai Nui, where the strange waters mutated the Mazesk to great size and increased the potency of their poison. Now they haunt the swamps of the core, one more danger in a land full of them. ■

Build the Mazesk using pieces from
8007 The Palace, 8002 Swamp, and
8007 The Spiders.
